

Blue Yarn Christmas Tree

Printing and color guide

Print page 1 on A4 paper in portrait orientation at 100% or Actual Size. Turn off Fit to Page. Page 1 is the full size making guide; keep this instruction page separate.

The guide follows one continuous line from the narrow top to the broad bottom. Leave the spaces between the zigzag runs open for the pompons.

Cover the triangular guide area with overlapping double sided tape. Remove the release liners before placing the yarn. The guide remains visible through the adhesive.

Use frosted blue plush yarn and an open clear craft tube wide enough for it to pass freely. Guide the yarn along the printed zigzag while pressing it gently onto the tape.

Finish with terracotta, copper, ochre, dusty rose, dusty plum, ivory, cream and sage pompons. Press them onto the exposed adhesive between the yarn runs.

An adult should prepare the adhesive area and the empty craft tube. Supervise children and keep small pompons away from children who may put them in their mouths.

Print scale check

This line must measure 50 mm at 100%.
