

Mandarin Peel Collage

Print guide

Print page 1 on US Letter paper or page 2 on A4 paper. Each is a portrait craft sheet with the same full size design. Choose Actual Size or 100%.

For a size check, print this guide at the same scale and measure the line below. It measures 2 inches (50.8 mm) between the end marks.

2 in / 50.8 mm

Lay wide double sided tape over the apricot fruit body. Keep the printed leaf and stem clear. Lift the liners, then press the white side of the fresh peel onto the adhesive so the orange skin faces you.

Turn the finished picture so the green leaf is at the top right.
