Santa Paper Mobile

Original printable outlines and color guide

Print the cutting pages

Print pages 2-5 on A4 paper at 100% or Actual size. Turn off Fit to page. Measure the 50 mm check line before coloring. Use the same settings on every page.

Keep the paired faces connected

Cut two separate Santa heads and nine connected small pairs. Do not cut the short dashed paper hinges. Each pair folds back to back to make one hanging motif. Leave white areas white and color matching faces alike.

Arrange three cords

Left: mitten, tree, candy. Center: snowman, bell, beanie. Right: gift, gingerbread figure, stocking. The center cord reaches slightly lower. Choose spacing before applying glue.

Join the faces around the cord

Lay one Santa head with its white reverse up. Secure three lower cord ends with small clear tape pieces. Add glue to the reverse and align the second head. Fold each small pair on its hinge and glue its faces around a cord.

Add the top loop

Leave the top join accessible. Fold a short cord into a loop and tape both ends to the inner paper surface between the hat layers. Close and press the join. Follow the photographs in the article.

Use the color guide

Page 6 shows the teal, rose, sage, plum and ochre palette and finished order. It is a reference page, not a cutting sheet. Marker fills can keep natural streaks; white areas need no coloring.

Scissors and cord require adult supervision. Keep the hanging mobile out of reach of young children.

Santa head - face A

Print at 100% / Actual size. Do not fit to page.

Cut around the outside. Keep every white beard and hat area intact.

50 mm scale check

Santa head - mirrored face B

Print at 100% / Actual size. Do not fit to page.

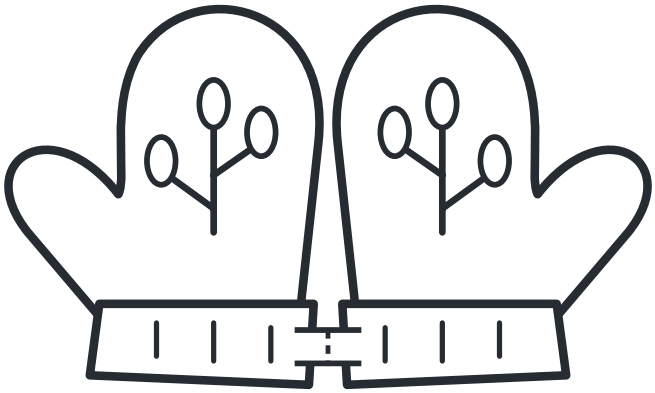

Cut around the outside. Keep every white beard and hat area intact.

50 mm scale check

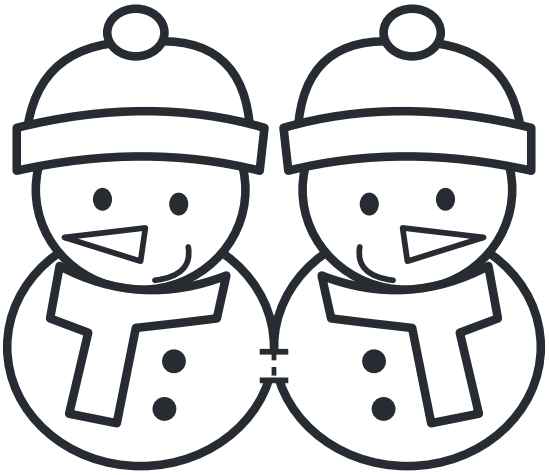

Paired outlines - mitten, snowman and bell

Print at 100% / Actual size. Do not fit to page.
